PROFILE

Software Engineering undergraduate at the Open University of Sri Lanka with a strong interest in software development and problem-solving. Experienced in building web and mobile applications through individual and group projects. Brings teamwork, communication and leadership skills, adapts quickly to new technologies, and is eager to contribute to real-world software projects.

EDUCATION

Bachelor of Software Engineering – The Open University of Sri Lanka *In Progress*
GCE Advanced Level – Arts Stream (Economics: C, Media: C, ICT: C) *2021*
GCE Ordinary Level – Sinhala Medium *2018*

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS
Frameworks & Libraries: React, React Native, Next.js, Node.js, Express.js, Spring Boot, Tailwind CSS
Databases: MySQL, MongoDB, Firebase
Tools & APIs: GitHub, Android Studio, Figma, Google Maps API

PROJECTS

Café Finder Mobile App | *Individual Project*
- Built a mobile app for café discovery, location tracking and navigation.
- **Technologies:** React Native, Node.js, Express.js, MongoDB, Google Maps API

Tourist Agent Management System | *Group Project*
- Developed a web application with backend functionality and database integration.
- **Technologies:** HTML, CSS, JavaScript, Express.js, MySQL

Coffee Shop Management and Ordering System | *Individual Project*
- Created a full-stack application for product management and online ordering with responsive interfaces.
- **Technologies:** HTML, CSS, JavaScript, Express.js, MySQL

Law Firm Website | *Individual Project*
- Built a responsive legal website featuring attorney profiles, practice areas, service information and consultation inquiries.
- **Technologies:** React, Next.js, TypeScript, Tailwind CSS

AURELLE Restaurant Management System | *Individual Project*
- Developed a restaurant platform with online ordering, table and VIP room reservations, real-time order tracking and role-based staff dashboards.
- **Technologies:** Next.js, React, TypeScript, Node.js, Express.js, MongoDB

Smart Shopping Mobile App | *Group Project*
- Developed a mobile shopping app with shopping-list and product, quantity and price management features.
- **Technologies:** React Native, Expo, Node.js, Express.js, MongoDB

Track My Kid – School Bus Child Tracking System | *Group Project*
- Contributing to a school bus tracking application that helps parents monitor children's boarding and drop-off updates.
- Working with Flutter and Firebase for application development, authentication and data management.
- **Technologies:** Flutter, Firebase Authentication, Cloud Firestore.

CERTIFICATIONS

- Postman API Fundamentals Student Expert
- University of Moratuwa – Web Development
- SoloLearn – Python Intermediate
- SoloLearn – Java Intermediate
