Profile

I am a Software Engineering student pursuing my degree with a passion for coding and problem-solving. I possess teamwork, communication, and leadership skills with the ability to adapt quickly to new challenges. I am eager to enhance my technical knowledge and contribute to real-world software projects.

Higher Education

Bachelor of Software Engineering at The Open University of Sri Lanka		In Progress
Diploma in Software Engineering at ICBT	Completed	(2023)
Certificate in Information Technology at ESOFT	Completed	(2022 – 2023)
GCE A/Ls in Art (Economics– C, Media – C, ICT – C)		2021
GCE O/Ls in English Medium		2018

Tech Skills

- Android Studio
- Java
- MySQL
- GitHub
- Spring Boot
- Figma

Soft Skills

- Communication
- Teamwork
- Time management
- Problem-solving
- Leadership
- Task prioritization

Certifications

- Postman API Fundamentals Student Expert
- UOM Web Development
- Sololearn Python Intermediate
- Sololearn Java Intermediate

Project Experience

1. Café Finder Mobile App– Individual Project

Designed and developed a full-stack Cafe Finder mobile application using React Native, Node.js, Express.js, MongoDB, and Google Maps API, providing users with real-time cafe search, location tracking, and navigation functionalities.

2. **Tourist Agent Management System – Group Project**

Built a web application using HTML, CSS, JavaScript, Express.js, and MySQL. Implemented backend logic and database integration

3. **Coffee Shop Management and Ordering System– Individual Project**

Developed a full-stack coffee shop web application using HTML, CSS,JavaScript, , Express.js, and MySQL, featuring product management, online ordering, and responsive user interfaces.

4. **Law Firm Website - Web Development Project**

Developed a responsive, professional law firm website using React, Next.js, TypeScript, and Tailwind CSS, featuring attorney profiles, legal practice areas, service information, consultation inquiries, interactive navigation, and mobile-friendly interfaces. Implemented modern UI/UX design with reusable components, responsive layouts, and an accessible user experience.

5. **AURELLE Restaurant Management System - Individual Project**

Developed a full-stack restaurant platform with online ordering, table and VIP room reservations, and real-time order tracking using Next.js, React, TypeScript, Node.js, Express.js, and MongoDB. Built role-based staff dashboards.
